Diana Palm is known internationally as an intuitive healer who utilizes her special connection to the spirit world to help people heal. Diana is a natural medium with spiritual sight and was raised in a large Catholic family that did not accept her abilities. In 1995, she traveled to Medjugorje Bosnia as a spiritual pilgrim where a priest taught her how to use her abilities to clear negative entities and help people heal. As Diana discovered how to use her natural gifts, she was finally able to embrace them. Since that time, she has worked with the public, both in private sessions and group events as well as worked extensively with haunted people and locations. Diana is a multi-published author and teaches classes worldwide.

Diana has attended classes at Arthur Findlay College, the World's Foremost College for the Advancement of Spiritualism and Psychic Sciences in England. She studied a wide variety of mediumship techniques and physical phenomenon through spirit communication. (2010)
